Sir:

In response to the Election of Species Requirement dated May 31, 2006 (Paper No./Mail Date 20060529), Applicant provisionally elects Species I, Figures 1-5F with traverse. It is respectfully submitted that claims 1, 2, 4, 5, 7, 8, 9, 10, 11, 12 and 13 read on the elected species.

It is respectfully submitted that the subject matter of all claims is sufficiently related that a thorough search or the subject matter of any one group of claims would necessarily encompass a search for the subject matter of the remaining claims. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP 803 which is stated that "if the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims that are distinct or independent inventions" (emphasis added).

It is respectfully submitted that this policy should apply to the present application in order to avoid unnecessary delay and expense to Applicants and the duplicative examination by the Patent Office.

As a result, Applicants respectfully request rejoinder of the claims to the application. In the event the claims are not rejoined to the application, Applicants reserve the right to file a divisional application encompassing the non-elected claims.

Date: June 29, 2006

Respectfully submitted,

By:
